

CRYOPRESERVE CELLS

BloodStor® 55-5

Preserving the promise™

Best-in-class optimized biopreservation media for cells and tissues

- ◆ 55% (w/v) DMSO
- ◆ 5% (w/v) Dextran 40
- ◆ USP/Highest Quality Components
- ◆ cGMP Manufactured
- ◆ Sterility, Endotoxin, and Cell-Based Release Testing

BloodStor®, is a series of generic cGMP freeze media products used to cryopreserve stem cells, other cells, and cell components isolated from umbilical cord blood, peripheral blood, bone marrow, and other biologics.

All BloodStor® products are formulated using USP grade components and Water for Injection (WFI) quality water.

Test methods and criteria are provided on all lot specific Certificates of Analysis and Release.
